Applicable:
General Service customers for all electric uses in one non-residential establishment adjacent to an electric distribution circuit of adequate capacity. Existing customers served under another rate schedule or new customers with expected usage less than 20,000 kWh for 12 consecutive billing months can qualify for service under this tariff. Existing Non-Residential General Service customers with usage greater than 20,000 kWh for 12 consecutive billing months may opt for service under the Large General Service tariff. An existing Non-Residential General Service customer may continue service under the Non-Residential General Service tariff, even if it no longer meet the usage criteria of less than 20,000 kWh for 12 consecutive billing months. No resale of electric service is permitted hereunder. Service hereunder is also subject to Company's Rules and Regulations. See Section 2.03 of the Company's Rules and Regulations for Electric Service Definitions for customer rate classification.

Character of Service:
60 Hertz alternating current, 120/240 volts, single-phase, through one meter and one point of delivery. Alternative voltages and/or three phase service is available in accordance with the Rules and Regulations and Excess Facilities Charge.
